

Name:  
Environmental /workers conditions

## Where ships and workers go to die:

Ship breaking in Bangladesh

- 1) Explain three dangerous working conditions which these workers face:
  - 
  - 
  -
- 2) What effects does the ship breaking have on the environment? On the workers health?
- 3) Contrast some of the conditions previously mentioned to the working and environmental conditions that American workers face mentioned in the video:
- 4) What safety equipment do these workers have? How much would it cost to outfit the workers with proper protection and tools? Why do you think that the money has not been spent to protect the workers:

5) Explain the payment given to these workers. How much are they paid? Is it enough to support their homes? A family? Themselves? Is it worth the pay the workers receive?

6) Explain your opinion on these conditions. What should be done? Why? How can this be brought to the attention of others? What steps should be taken to meet these goals?

7) Go to Google earth and try to find the ship breaking yards in Bangladesh.
